The speaker of this session will be Mr. Vijay Tiwari, Full Stack developer, Tech Academy, Bhopal, who will be guiding the students about Java Script & React JS which will be an informative session for the students. The five days workshop on JavaScript & React JS by Mr. Vijay Tiwari, Stack Developer, Tech Academy, Bhopal has been started, the students are very much interested in learning more about it and the session provided by the expert is much more informative which is developing interest between the students to know more about it.

Prize distribution, has been conducted for all the students who has attended the Five days workshop on JavaScript & React JS organized by Faculty of Science & IT at Madhyanchal Professional University.

**Visit to MP Water and Land Management Institute (WALMI)**

Industrial visit was organised for the students of Civil Engineering, Faculty of Engineering and Technology to MP Water and Land Management Institute (WALMI), where they have explored to make water resources projects which are both sustainable and competitive through human resources development and capacity building of irrigation managers and stakeholders to meet future demand by improved technological interventions for improving water use efficiencies. Also Students visited the Ecological Park at WALMI and performed various physical activities

**Laboratory Sessions**

Patel college of pharmacy organized two and a half day training integrates classroom lecture and hands-on laboratory sessions to provide a comprehensive learning experience. There will be two half-days of lectures and three half-days of hands-on laboratory sessions to provide the participants an overall understanding of tablet manufacturing.

This is a practical based learning on Tableting.

Tableting is a method of pressing medicine or candy into tablets. Confectionery manufacture shares many similarities with pharmaceutical production.

A powder or granule mixture is prepared, a dye mold is filled, and then the mixture is compressed and ejected. While drug tablets are constrained to shapes and sizes that can be swallowed easily, candy tablets are designed to be chewable and can take a wider variety of shapes and sizes.

**Practical Training at Haque Multi-Speciality Hospital**

Students of Medical and Paramedical Sciences have visited Haque Multi-speciality hospital for their practical training, which has helped them to gain practical knowledge about the working culture of the hospital, how to manage on critical situations and how to deal with the patients. This practical training is going to help them to enhance their skills.

# Farewell 2023
