Branch/specialization	Subject Title	Subject Code	Grade for End Semester		Credit Allotted
B.Ed.	PSYCHOLOGY OF LEARNER, LEARNING & TEACHING	BED103	Theory	Practical	4
			Min 60	Nil	

Unit-wise Content distribution

UNIT	CONTENT
Unit -1	<p>Learner as developing individual; Concept of learning and teaching-Meaning ,scope,need and importance. Variables in the teaching process-The learning tasks (Instructional objectives), Learner behavior (Entry behavior, Learning style), Teacher behavior(Competence, Expectation, Personality and Teaching style). Learning theories -Trial & error, conditioning (classical and operant) and social learning, cognitive(insightful learning and information processing model). Role of learner in learning situations. Role of teacher in teaching learning situation –Transmitter of knowledge, model, facilitator, negotiator, co-learner.</p>
Unit-2	<p>Development and learning - Meaning and principles of development, relationship between development and learning. Dimension of individual development: physical, cognitive,language, affective, social and moral, their interrelationships and implications for teachers relevent ideas of piaget, Erikson and Kohelberg). Stages of development:development task with focus on processes growth and development across various stages from infancy to post-adolescence (special emphasis on concerns of adolescence. Meaning of ‘cognition’ and its role in learning. Socio-cultural factors influencing cognition and learning. Facilitating holistic development(for self and society).</p>
Unit-3	<p>Mental process of learning: Thinking process - Concept and tools. Types of thinking - Divergent, convergent, critical, reflective</p>

MADHYANCHAL PROFESSIONAL UNIVERSITY, BHOPAL

	<p>and lateral thinking. Mental process: Memory - Concept, types of strategies to develop memory. Forgetting - Nature, causes, factors and strategies to minimize forgetting. Imagination - Meaning, types and educational implications.</p>
Unit-4	<p>Individual difference among learners: Dimensions of differences in psychological attributes - Cognitive abilities, interest, aptitude, creativity, personality, values. Understanding learner's from multiple intelligences perspective with a focus on Gardner's theory of multiple intelligences, Implications for teaching-learning in the light of changing concept of intelligence, including emotional intelligence. Differences in learners based on predominant 'learning styles'. Differences in learners based on socio-cultural contexts: Impact of home languages of learners' and language of instruction, impact of differential 'cultural capital' of learners. Understanding differences based on a range of cognitive abilities : learning difficulties, slow learners and dyslexics, intellectual deficiency, intellectual giftedness. Implications for catering to individual variations in view of 'difference' rather than 'deficit' perspective.</p>
Unit-5	<p>Teaching as a Profession Teaching as profession (basic characteristics of teaching qualifying it as a profession. Professional development of teachers : -Need (link between professional development of teacher and substantial school improvement and student learning). -Phases of Professional Development (Pre-service and In-service). -Approaches (i) Conventional face to face (through various institutions). (ii) School based INSET (iii) Action Research (iv) Professional Learning Communities (PLC) (v) Self initiated learning (vi) Professional Development through distance mode - Facilitating professional development Teacher Autonomy and Accountability.</p>
